

## 6<sup>th</sup> Grade Science Work for November 9-13, 2020

This week, we will conclude the Earth, Sun, and Moon System unit. We will begin the week by doing the students' favorite review, an escape room activity. On Tuesday, students will complete the unit test. Thursday and Friday of this week will be make up time for any work that is missing or that students want to improve on. Looking forward to a great week!

### **What you need to know:**

- Vocabulary**
  - Revolution
  - Rotation
  - Phases
  - Eclipses

**This week, students are expected to complete the following assignments:**
